JANUARY 1980

Distribution Policy: To disseminate the findings and results of ABAG programs to as wide an audience as possible, single copies of the publications which follow will in most cases have been forwarded without charge to Bay Area libraries and to selected governmental agencies.

Unfortunately, when copies of our lengthier publications are requested by other agencies and individuals, modest handling and postage charges are necessary to partially offset costs. Whether there is a charge or not is indicated in the left-hand column of the Bibliography (see Key below).

Checks should be made payable to ABAG. Please make sure you include the postage costs specified and that you send your name and mailing address with the order.

Directory Key: Some of our publications are discounted if purchased in quantity; others are not. A dollar amount in the left-hand column means that no discount is possible. An explanation of the other symbols used follows:

1. "C" indicates that the first copy of this report costs \$3.00, but you pay only \$1.00 for each additional copy ordered at the same time. Or you may find several different "C" reports you want. The first costs \$3.00, but each of the others costs only \$1.00.
2. "NC" indicates there is no charge for the publication.
3. "X" indicates the publication is out of print, but probably available on a non-circulating basis from either the ABAG/MTC Library or from a public library in the area.
4. An asterisk (\*) indicates those items that are available from the U.S. Department of Commerce, National Technical Information Service (NTIS), Springfield, VA 22151. Please use the PB numbers as indicated when ordering those items from NTIS.

Postage Fees: We charge postage only for those publications marked with a "C" or which have a set dollar cost. Unless we've specified a higher charge for a publication listed, please include .75 extra for each report ordered if Book Rate is satisfactory, or \$1.75 each if First Class is necessary. (The \$1.75 rate is a little less than the average cost of mailing one of our publications.)

ABAG Library: Quite a number of additional materials are available for review at the ABAG Library, now merged with the MTC Library. Call 849-3223 to check availability of the desired publications.

Depository Libraries: Attached to this Bibliography is a listing of the depository libraries throughout the region that have donated space to the Association for displays and extensive collections of materials that ABAG staff have developed for the Environmental Management Program, funded by a grant from the U.S. Environmental Protection Agency.
